2. Investment Details

2.1 Investment Structure

The Fund has been established to invest in global equities with an ultra long term investment focus and is targeting a gross real return (i.e. after inflation) to Investors of approximately 10% per annum (pre-tax, after fees and expenses but before withholding tax payable by foreign resident Investors).

The following diagram illustrates the structure of the Fund and relevant parties involved:

Legally, the Fund is an unlisted, unregistered managed investment scheme structured as a unit trust and established by a Constitution dated 5 March 2018 which regulates the relationship between the Trustee and Investors. The monies contributed by Investors as Application Money will be pooled and invested in accordance with Investment Strategy detailed in section 2.2 below.

As at the date of this IM, there is no requirement or intention to register the Fund with ASIC or to list the Fund on a secondary market such as the ASX.

Vasco Investment Managers Limited (Vasco) is the Trustee of the Fund. Vasco has appointed Orsaro Capital Pty Ltd as the Fund's investment manager, having responsibility for, among other things, marketing the Fund and managing the Fund's investments.

Vasco has also appointed Vasco Funds Management Pty Limited as the Fund's administration manager, having responsibility for, among other things, processing applications and fund accounting.

2.2 Investment Strategy

The Fund is a global equity fund focussed on investing in global businesses based on company fundamentals and taking an ultra long term view when making investments.

The Investment Manager's key investment tenets are:

1. Capital preservation

- Stay rich rather than get rich quick investments
- Risk is defined as the risk of capital loss (and not volatility)

2. Compound wealth

- Seek long term risk adjusted real returns (i.e. after inflation) of 10% per annum
- Find great companies for the long term and let the power of compounding do the heavy lifting
- Time is our advantage over the relentless market focus on the short term

3. High conviction

- When a great, well researched business idea is found, invest with conviction
- There is no point having unnecessary diversification

4. Benchmark agnostic

- If we want benchmark returns, we can buy an index fund
- With our focus on fundamentals and finding great companies, over the long term we aim to outperform comparable market benchmarks on a risk weighted basis

The Fund's investment mandate will allow the Investment Manager to do the following:

1. Purchase publicly listed securities on any recognised global exchange
2. Purchase pre-IPO securities (with a stated intention to list within a 12 month period)
3. Use covered derivative strategies
4. Short sell securities
5. Enter into foreign exchange transactions for hedging purposes and where required for investment in foreign securities.

2.3 Borrowings

There will be no borrowing (leverage) within the Fund. Any short positions that the Fund takes will be fully backed by cash.

2.4 Valuation Policy

The Trustee maintains and complies with a written valuation policy, which is reviewed at least annually or as market circumstances dictate. This policy may be updated from time to time and is available on the Trustee's website at www.vascofm.com.

2.5 Investing surplus funds

From time to time the Fund may have excess capital which is not immediately required or able to be suitably invested or funds which are being held pending distribution to Investors. In those circumstances the Investment Manager may invest those funds in cash and cash equivalents (i.e. term deposits offered by ADIs) or such other similar creditworthy and liquid investments as determined by the Investment Manager from time to time.

3. Management of the Fund

As trustee, Vasco Investment Managers Limited will manage the Fund in accordance with the Constitution and its duties and obligations under Australian law and, importantly, will have regard to the best interests of Investors in all decisions that it makes with respect to the Fund.

4. Fees and Expenses

4.1 Management Fee

The Trustee is entitled to a **Management Fee** of 1% (plus GST) per annum of the Fund's gross asset value.

Other than the Performance Fee, all other fees and expenses of the Fund (described below) will be paid out of the Management Fee, with the remainder provided to the Investment Manager. These fees and expenses include (excluding GST):

1. An **annual trustee fee**, subject to a minimum fee of \$25,000 per annum (reduced for the first 6 months of the Fund to \$5000), equal to 0.10% per annum of the Fund's gross asset value up to \$100m, 0.05% per annum of the portion of the Fund's gross asset value greater than \$100m but less than \$200m, and 0.03% per annum of the portion of the Fund's gross asset value greater than \$200m. This fee accrues and is calculated monthly from execution of the Constitution and is payable to the Trustee monthly in arrears from establishment of the Fund.

2. A **trustee replacement fee**, where the Trustee is terminated or replaced, of:

- \$9,500; plus

- where the Trustee is terminated or replaced within 3 years of the Commencement Date, the balance of the annual fee which would have been otherwise payable calculated on the basis of the gross asset value of the Fund

3. An **administration fee** (paid to the Administration Manager) of:

- Subject to a 5% increase on 1 January of each year:

- \$15,000 per annum (reduced for the first 6 months of the Fund to \$7500) where the gross asset value of the Fund is less than \$20m and there are less than 25 Investors;
- \$25,000 per annum where the gross asset value of the Fund is \$20m or more or there are 25 or more Investors;
- \$5000 per annum for each additional Unit class established (though there is no expectation as at the date of this IM to establish multiple Unit classes)

4. Any additional expenses incurred by the Trustee as outlined in the Constitution, including those expenses associated with establishing and operating the Fund.

The Investment Manager has agreed to cover any shortfall where the Management Fee is insufficient to cover the above fees and expenses. The Trustee reserves the right to recover any fees and expenses directly from the assets of the Fund where the Investment Manager does not cover this shortfall.

4.2 Performance Fee

The Investment Manager is entitled to an annual Performance Fee of 15% (plus GST) of all returns of the Fund above 10% per annum (pre-tax and distributions, after fees and expenses but before withholding tax payable by foreign resident Investors).

The 10% p.a. hurdle rate is calculated on a simple (non-compound) interest basis.

Payment of the Performance Fee is subject to a high watermark. This means the Investment Manager cannot charge its Performance Fee unless the net asset value (NAV) of the Fund is at least the previous highest value when the previous performance fee was charged plus the 10% per annum hurdle rate.

Worked example

At the start of Year 1, the NAV price (per Unit) of the Fund is \$1.00.

At the end of Year 1, the NAV price (per Unit) of the Fund is \$1.15, with the Fund earning 15% for the year pre-tax and distributions after fees and expenses, which is above the hurdle rate of 10%, or a NAV of \$1.10.

The Performance Fee is calculated as $15\% \times (1.15 - 1.10) + \text{GST} = 0.75\% + \text{GST} = 0.825\%$

The high watermark then equals the NAV price (per Unit) of the Fund at the end of Year less the Performance Fee, i.e. $\$1.15 \times (1 - 0.825\%) = \1.1405 .

While the Performance Fee is calculated on the performance of the Fund and paid by the Fund, the impact for an individual investor that invests \$250,000 at the start of year 1 can be illustrated as follows:

- The value of his or her investment prior to the performance fee calculation is \$287,500 at the end of year 1 ($\$250,000 \times 1.15$).
- A Performance Fee of \$2,371.88 is then payable to the Investment Manager leaving an investment value of \$285,125.00.
- The high watermark is equal to the investment value after the Performance Fee (\$285,125.00) and the Investment Manager will only earn a Performance Fee once performance exceeds 10% per annum (pre-tax and distributions, after fees and expenses) above this high watermark.

4.3 Buy sell spread

As at the date of this IM, a transaction charge (buy-sell spread) of 0.5% will be factored into the Unit Price calculation of the Fund on entry and exist.

Buy and sell spreads are calculated based on the actual or estimated costs the Fund may incur when buying or selling assets, such as brokerages fees. They will be influenced by the Investment Manager's experience of the costs involved in trading these assets or the costs that the Fund has actually paid, and will be reviewed whenever necessary to ensure they remain appropriate.

The buy and sell spreads are retained within the Fund and are not fees paid to the Trustee or the Investment Manager. The buy spread is taken out of application amounts. The sell spread is taken out of withdrawal amounts.

The buy and sell spreads may be updated from time to time and will be published online at **www.vascofm.com** or by contacting **Vasco Investment Managers Limited on +613 8352 7120**.

4.4 Goods and services tax

Unless otherwise stated, all fees quoted in the IM are quoted exclusive of GST.

4.5 Waiver, deferral or rebate of fees

The Trustee or Investment Manager may accept lower fees and expenses than it is entitled to receive, or may defer payment of those fees and expenses for any time. If payment is deferred, then the fee will accrue until paid. In addition, the Investment Manager or Trustee may waive, negotiate or rebate their fees, for example, in the case of a large investment amount.

5. Risks

All investments involve varying degrees of risk.

While there are many factors that may impact on the performance of any investment, the section below summarises some of the major risks that prospective Investors should be aware of when investing in the Fund.

Before investing, prospective Investors should consider whether the Fund is a suitable investment, having regard to their personal investment objectives, financial position, particular needs and circumstances.

Prospective Investors should also consider and take into account the level of risk with which they are comfortable, the level of returns they require, as well as their frequency and nature and their investment time horizon. Prospective Investors should seek professional advice in setting their investment objectives and strategies.

The risks described below are not exhaustive and whether a risk is specifically referred to in this section or not, that risk may have a material effect on the performance and value of the Fund.

Importantly, prospective Investors should note that the value of an investment in the Fund, and income received by Investors, may rise or fall and, consequently, Investors may suffer losses (including the loss of all of their capital investment in the Fund).

5.1 Market risk

There is a risk that the market value of the Fund's assets will fluctuate. This may occur as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, environmental and technological issues.

5.2 Country specific risk

There is a risk that the market value of the Fund's asset may decline due to country specific risks. For example, there may be sovereign risks, political events, economic instability, lack of accurate information about the companies or unfavourable government actions. Investments in these foreign companies may be less liquid, more volatile or difficult to value. Some countries may have different legal systems, taxation regimes, auditing and accounting standards, less governmental regulation and transparency. This risk may be greater with emerging market investments.

5.3 Company specific risks

There is a risk that the market value of investments may decline due to company specific risks. For example, the progress of individual companies may be negatively affected by changes in factors such as the competitive environment in which they operate, regulatory changes, technological changes, personnel changes and changing consumer preferences.

5.4 Liquidity risk

There is a risk that the market value of the Fund's assets may decline in value due to liquidity risks. For example, in unusual or volatile market conditions, some investments may become illiquid. The Fund may invest in pre-IPO securities. There is a risk that such companies do not proceed with a public offering and remain private companies. Where the companies remain private, there is a limited market for their securities and as a result liquidity will be restricted. This would impact the Fund's ability to sell these investments, and to make withdrawal payments to Investors.

It is possible that there may be significant delays before the Trustee can satisfy Withdrawal Requests or that Trustee will not be able to satisfy any Withdrawal Requests and Investors will not be able to withdraw their investment in the Fund until the Fund is wound up by the Trustee.

5.5 Diversification risk

There is a risk that the market value of the Fund's assets may decline in value due to portfolio concentration within the Fund. The Fund will aim to have high conviction with its best ideas and as a result the Fund may only have 20-40 investments. For example, there could be a high percentage of the Fund invested in a particular investment, sector or industry, and the Fund's performance may be more vulnerable to an economic, political, regulatory event.

5.6 Currency risk

The investment performance of the Fund will be reported in Australian Dollars. The Fund is a global equity fund, and hence will hold investments in foreign countries. The Fund may from time to time hedge a portion or all of its currency risk, so if the value of the currency where an investment is made changes relative to the Australian Dollar, then the value of the Fund may change. Investors should be aware that the majority of the Fund's investments will be held in foreign countries and hence there will be currency risk.

5.7 Interest rate risk

Fluctuations in market interest rates may impact on an investor's investment. For example, rising market interest rates may increase the interest costs of a company, in turn decrease the value of the company's stock.

5.8 Fund risk

These are risks specific to managed funds. These risks include that the Fund could terminate, the fees and expenses of the Fund could change, the Trustee may be replaced as trustee and the Investment Manager may be replaced as investment manager of the Fund.

5.9 Investment risk

The value of an investment may rise or fall, distributions may or may not be paid and Investor's capital may or may not be returned. No guarantee is made by the Trustee, the Investment Manager, or any of their directors, associates or consultants on the performance of the Fund.

5.10 Valuation risk

Some investments, such as pre-IPO securities, may not have a readily ascertainable market price and may have valuations which vary markedly from their realisation value.

5.11 Management risk

The Trustee and Investment Manager may elect to retire or may be replaced as the Trustee or Investment Manager of the Fund or the services of key personnel of the Trustee and Investment Manager may become unavailable for any reason.

There is always a risk that the Trustee and Investment Manager may fail to identify and adequately manage the investment risks in the Fund's portfolio and thus affect the ability to pay distributions or reduce the value of the Units.

Operational risks of the Trustee, the Investment Manager and the Administration Manager include the possibility of systems failure, regulatory requirements, documentation risk, fraud, legal risk and other unforeseen circumstances.

The Fund is relying on the ability of the Investment Manager and its investment professionals to achieve the Fund's objectives. If the Investment Manager and their investment professionals were not to continue in their respective roles, the Fund may not be able to achieve its objectives.

5.12 Legal, regulatory and compliance risk

Changes in government legislation, regulation and policies generally could materially adversely affect the operating results of the Fund. Although unable to predict future policy changes, the Investment Manager intends to manage this risk by monitoring and reacting to any potential regulatory and policy changes.

The operation of a funds management business in Australia is subject to significant regulation by Australian government authorities including without limitation the ASIC, the Australian Transactions Reporting and Analysis Centre, the Foreign Investment Review Board and the Australian Consumer and Competition Commission. There is a risk that the Fund may not comply at all times with its various obligations under government regulations and this may result in the loss of authorisations of the AFSL held by the Trustee thereby preventing the continued operation of the Fund.

5.13 Derivative Risk

Whilst the Investment Manager does not intend for the Fund to have leveraged derivative exposure (with all positions held in cash or equity covered), changes in volatility may affect the fair market value of any derivative exposures, which may cause loss to the Fund. In addition, derivative exposures expose the Fund to the risk that derivative counterparties fail to make good on their obligations, which may cause loss to the Fund. It is the intention of the Investment Manager to have minimal exposure to derivative positions.

5.14 Short selling risk

The Fund may undertake short selling of securities. Short selling involves borrowing stock and selling these borrowed securities. Short selling has the potential to cause losses which are large in proportion to the amount of money invested and are theoretically unlimited because there is no limit on how much the price of a security may appreciate. The Investment Manager intends that any short positions will be fully backed by cash.

5.15 Tax risk

Tax regulations can change and changes can be adverse. Prospective investors should consider their own circumstances before investing.

5.16 Operating history

The Fund has no operating history upon which Investors may base an evaluation of its likely performance. The success of the Fund's investment activities will depend almost entirely on the Investment Manager's ability to carry out the proposed investment strategy successfully. While the principals of the Investment Manager have previous experience making and managing investments of the type contemplated by the Fund, there can be no assurance that the Fund's investments will achieve the Target Return.

5.17 Fees and expenses

Other than the Performance Fee, all fees and expenses of the Fund (outlined in Section 4) will be paid out of the Management Fee, with the remainder paid to the Investment Manager. The Investment Manager has agreed to cover any shortfall, where the Management Fee is insufficient to cover these fees and expenses and may be reimbursed by the Fund at some future date. However, Trustee maintains the right to recover any fees and expenses directly from the assets of the Fund where the Investment Manager does not cover this shortfall. These fees and expenses will accrue whether the funds raised are fully utilised or not.

5.18 Thinly-capitalised management

The Investment Manager does not have any material independent financial resources. If an action or claim is brought against the Investment Manager and such claim is not covered by the professional indemnity arranged by or on behalf of the Investment Manager, the Fund cannot assure that the Investment Manager will have sufficient financial resources to cover any amounts payable under any such claim.

5.19 Other risks

It is important to note that not all risks can be foreseen. It is therefore not possible for the Investment Manager to protect the value of the Fund's investment from all risks. Prospective investors should ensure they obtain appropriate professional advice regarding the suitability of an investment in the Fund having regard to their individual circumstances, including investment objectives, their level of borrowings, their financial situation and individual needs.

Neither the Trustee nor Investment Manager guarantees the repayment of investments or the performance of the Fund. We strongly recommend that Investors obtain independent financial advice before investing in the Fund.

6. Taxation information

Each Investor's taxation position will depend on their individual circumstance and Investors should seek their own taxation advice in relation to the taxation of income distributed by the Fund, whether interest, dividends, capital gains, etc.

6.1 Tax File Number and Australian Business Number

It is not compulsory for an Investor to quote a Tax File Number (TFN), claim a valid exemption for providing a TFN, or (in certain circumstances) provide an Australian Business Number (ABN). However, if an Investor does not provide a TFN, exemption or ABN, tax will be required to be deducted from the Investor's distributions at the highest marginal tax rate plus Medicare levy and any other applicable Government charges (currently 49%).

6.2 Stamp Duty on the transfer of Units

As the register of the Fund will be maintained in Victoria, no marketable securities duty is payable on the transfer of Units in the Fund. Land rich or landholder duty may be payable in the issue, redemption or transfer of Units in any Australian jurisdiction where the Fund owns or has an interest in land.

6.3 Australian Goods and Services Tax (GST)

GST should not be payable on the issue or redemption of Units nor on any of the distributions to Investors. GST may apply to the fees charged to the Fund by the Investment Manager and in relation to other expenses of the Fund. The Fund may be entitled to claim input tax credits and / or reduced input tax credits for any GST paid

6.4 Foreign Account Tax Compliance Act (FATCA)

FATCA is United States (US) tax legislation that enables the US Internal Revenue Service (IRS) to identify and collect tax from US residents that invest in assets through non-US entities. If you are a US resident for tax purposes, you should note that the Fund is or is expected to be a 'Foreign Financial Institution' under FATCA and it intends to comply with its FATCA obligations, as determined by either the FATCA regulations or any inter-governmental agreement (IGA) entered into by Australia and the US for the purposes of implementing FATCA. Under these obligations, the Fund will have to obtain and disclose information about certain Investors to the Australian Taxation Office (ATO). In order for the Fund to comply with its obligations, we will also request that you provide certain information about yourself, including your US Taxpayer Identification Number (TIN). We will only use such information for this purpose from the date the Fund is required to do so.

6.5 Common Reporting Standards (CRS)

CRS is the standard set by the Organisation for Economic Co-operation and Development (OECD) for the automatic exchange of information with revenue authorities for tax non-residents that invest in certain financial accounts. The standard covers both the identification of tax non-residents and reporting on the applicable financial accounts. The Trustee is a 'Reporting Financial Institution' under CRS and intends to comply with its CRS obligations under any relevant Australian laws and regulations, including obtaining and disclosing information about certain investors to the ATO or other foreign tax authorities as required. To facilitate these disclosures, Investors will be required to provide certain information such as that relating to their country of tax residence and their relevant taxpayer identification number (if applicable).

The CRS regime took effect on 1 July 2017, with the first exchange of information to occur in 2018.

7. Additional Information

7.1 Summary of material documents

The following is a summary of material documents relevant to the Fund. The material documents are:

- 1. Constitution**
- 2. Investment Management Agreement**
- 3. Administration Agreement**

You should consider whether it is necessary to obtain independent advice on any of the documents.

1. Constitution

The Constitution is the primary document that governs the way the Fund operates and sets out many of the rights, liabilities and responsibilities of both the Trustee and Investors.

Each Unit gives you an equal and undivided interest in the Fund. However, a Unit does not give you an interest in any particular part or asset of the Fund. Subject to the Constitution, as an Investor you have the following rights:

- The right to share in any distributions.
- The right to attend and vote at meetings of Investors.
- The right to participate in the proceeds of winding up of the Fund.

The Constitution contains provisions about convening and conducting meetings of Investors. Under the Constitution, the Trustee may create different Unit classes which may have different rights and obligations. As at the date of this IM, there is no intention to create multiple Unit classes.

The Trustee can amend the Constitution without Investors' approval provided it reasonably considers the change will not adversely affect Investors' rights.

The Constitution can also be amended by a special resolution passed by Investors.

A copy of the Constitution is available free of charge by contacting the Trustee on: +61 3 8352 7120.

2. Investment Management Agreement

The Investment Management Agreement is between the Investment Manager and the Trustee under which the Investment Manager provides marketing and investment management services.

The Investment Management Agreement will remain in force until the Fund is wound up, unless the agreement is terminated earlier in accordance with its provisions. The agreement can be terminated by the Trustee if the Investment Manager is in material breach of the agreement, and that breach has not been remedied after a certain time. There are also provisions allowing the Trustee to terminate if, for example, the Investment Manager becomes insolvent.

The Investment Manager is permitted to terminate the agreement in certain circumstances, such as if the Trustee ceases to be the trustee for the Fund.

3. Administration Agreement

The Administration Agreement is between the Administration Manager and the Trustee under which the Administration Manager provides fund administration and accounting services to the Fund.

7.2 Related party transactions

The Trustee may from time to time face conflicts between its duties to the Fund as trustee, its duties to other funds that it manages and its own interests. The Trustee will manage any conflicts in accordance with its conflicts of interest policy, the Constitution, ASIC policy and the law.

The Investment Manager is not a related party of the Trustee. The contractual arrangements between the Trustee and the Investment Manager are negotiated at arm's length between the parties.

The Trustee may from time-to-time enter into transactions with related entities, which will be on arm's length terms. For example, the Administration Manager is a related party of the Trustee.

As at the date of this IM the Investment Manager does not have any intention to invest in companies that are related to it but reserves the right to do so where it considers such investments to be in the best interests of investors and where the commercial terms of such an investment are on arm's length terms, as determined by usual market practices for similar transactions.

7.3 Privacy

In applying to invest, you are providing the Trustee and the Investment Manager with certain personal details (your name, address etc.). The Trustee uses this information to establish and manage that investment for you.

Under the Privacy Act 1988 (Cth), you can access personal information about you held by the Trustee, except in limited circumstances. Please let the Trustee know if you think the information is inaccurate, incomplete or out of date. You can also tell the Trustee at any time not to pass on your personal information by advising it in writing.

If you do not provide the Trustee with your contact details and other information, then it may not be able to process your application to invest.

Under various laws and regulatory requirements, the Trustee may have to pass-on certain information to other organisations, such as the Australian Tax Office or the Australian Transaction Reports and Analysis Centre (AUSTRAC).

By applying to invest, you give the Trustee permission to pass information it holds about you to other companies which are involved in helping it administer the Fund, or where they require it for the purposes of compliance with AML/CTF law or in connection with the holding of Application Money. The Trustee may also use your information to provide you with details of future investment offers made by it or the Investment Manager.

7.4 Anti-money laundering law

The Trustee is required to comply with the Anti-Money Laundering and Counter Terrorism Financing Act 2006 ("AML/CTF Law"). This means that the Trustee will require potential Investors to provide personal information and documentation in relation to their identity when they invest in the Fund. The Trustee may need to obtain additional information and documentation from Investors to process applications or subsequent transactions or at other times during the period of the investment.

The Trustee may need to identify:

(a) an Investor prior to purchasing Units in the Fund. The Trustee will not issue Units until all relevant information has been received and an Investor's identity has been satisfactorily verified; and

(b) anyone acting on behalf of an Investor, including a power of attorney.

In some circumstances, the Trustee may need to re-verify this information.

By applying to invest in the Fund, Investors also acknowledge that the Trustee may decide to delay or refuse any request or transaction, including by suspending the issue or withdrawal of Units in the Fund, if it is concerned that the request or transaction may breach any obligation of, or cause the Trustee to commit or participate in an offence under, any AML/CTF Law, and the Trustee will incur no liability to Investors if it does so.

7.5 Transfer of Units

You can transfer the ownership of your Units at any time provided that the transferee meets the requirements of an Investor in the Fund and has been approved by the Trustee.

Under the Constitution, the Trustee has the discretion to refuse the transfer of Units and is not obliged to accept a transfer of Units. Please note that a transfer of Units may have taxation consequences. See Section 6 of the IM for further information.

There will not be any established secondary market for the sale of Units.

7.6 Consents

Written consent to be named in the IM in the form and context in which they are named have been provided by the following parties who and have not withdrawn their consent prior to the date of this IM:

- Orsaro Capital Pty Ltd
- Vasco Funds Management Pty Ltd
